

Welcome to the Line Manager Hub

A dedicated resource designed to support you in guiding Apprentices through every stage of their journey, from onboarding to career progression.

Thank you for playing such a vital role in your Apprentice's development. By nurturing their growth, you're helping to shape future talent and build a more skilled, motivated, and loyal workforce.

Apprentices bring fresh perspectives and a strong willingness to learn, often inspiring those around them and enriching the team dynamic. Collaborating closely with your Apprentice and their Coach can also save you time on training and development. Aligning their learning with team goals highlights the positive impact Apprenticeships can have on performance & contributes to broader business success.

The Hub provides practical tools and guidance to make your role easier and more impactful. You'll find insights

into common Apprenticeship misconceptions, tips for preparing progress reviews, explanations of End-Point Assessment (EPA), and advice on supporting Apprentices as they take their next career steps.

We hope you find the Hub useful and remember, we're here to support both you and your Apprentice every step of the way. Please don't hesitate to reach out if you have any questions or need further guidance.

Kind regards,

Craig Potter
Senior Partner
People Development
